The tour is led by David Rosenberg (above), author of 'Battle for the East End' and 'Rebel Footprints'

Tickets: £15 with minimum fundraising expected £15

Limited places, book your tickets in advance: info@icahduk.org

ICAHD UK is part of a global network of non-violent campaigners educating and informing the public towards a safe and just future for Israel / Palestine.

Our aim is for peaceful resistance and protest against house demolitions and human rights abuses, and direct action grassroots support for Palestinian families and communities.

During this sponsored walk and radical tour of London's East End we will explore the struggles and stories of communities coming together to oppose those who tried to set them against each other. You will learn about how the East End resisted the invasion of Oswald Mosley's fascists. You will learn why and how the Jewish People's Council was created and what it did to stop the growth of fascism in the East End.

At the same time we ask: is there a democratic process available for non-Jewish citizens in Israel or is it now headed for fascism?

***We will be gathering afterwards for networking and continued discussion in a local pub**

"A superb and thought-provoking event which inspires me even more strongly to oppose house demolitions in both Palestine, and, disgracefully the UK too!" - Irene Sedler, UK
